

# THE POWER AFRICA MODEL

Accelerating inclusive growth and thriving economies through partnerships that provide reliable electricity access, while expanding opportunities for U.S. firms in alignment with national security priorities.

## WHO WE ARE

12

#### **U.S. GOVERNMENT AGENCIES**

One-stop shop for companies and governments, managed by USAID's Coordinator's Office

140

#### PRIVATE COMPANIES

Sustainable, profitable private investment advancing development goals in sub-Saharan Africa.

15

## BILATERAL & MULTILATERAL PARTNERS

Coordinated support for power deals, new connections, and reforms.

## HOW WE WORK

Power Africa uses the full breadth of U.S. Government and other donor tools to support sub-Saharan African governments and the private sector by unsticking deals, creating an attractive investment environment and driving reforms.

#### **POWER AFRICA TOOLBOX**

-Examples of U.S. Government Tools-

#### CAPACITY BUILDING

#### POLICY/REGULATORY REFORM

MCC compacts; State Department diplomacy

### **GRANTS**

USADF community-level grants; USTDA feasibility studies; MCC infrastructure grants

## WHAT WE WILL ACHIEVE

## 30,000 MW

of new generated power by 2030

## 60 million

new connections to reach 300 million Africans

## \$50+ billion

Private and non-USG public sector financing

## 40,000+

U.S. jobs by 2030

## \$10+ billion

U.S. exports

"The Cap des Biches financing agreement is tangible evidence of the power of Power Africa. It is by far the fastestproject that I have ever worked on in Africa, and Power Africa made all the difference. This project would have taken four years in the absence of Power Africa. Instead it took one year. This is the power of an idea that is embraced and sponsored by the United States."
